

# Amazing Biblical Discoveries

Noah's Ark \* Sodom & Gomorrah \* Red Sea Crossing \* Mt. Sinai \* Ark of the Covenant

Ron Wyatt & Col. James Irwin  
Turkey, 1985

Ron Wyatt made 140 trips overseas to work on these discoveries that have been confirmed by others. The evidence speaks to their authenticity. Mr. Wyatt was a nurse anesthetist who used his own money, approximately \$1,000,000, working on the discoveries over 22 years. He said God partnered with the most unlikely person to bring out these discoveries. Mr. Wyatt was a humble, faithful Christian whom God assisted in this work. Mr. Wyatt wanted to help someone get to heaven, and he knew this evidence would help in converting hearts.

**Noah's Ark:** The ark is exactly 300 Egyptian cubits in length, contains man-made metal, petrified wood, rib timbers, radar shows man-made features within. Government built visitors' center at site, and it is across the valley from Mount Ararat.

See video

**Sodom & Gomorrah:** Along the western side of the Dead Sea are white ashen remains containing brimstone or sulphur. Man-made structures can be seen, and bones found in the ashes. This is evidence of the wrath of God upon sinful man. God has preserved this for the world to see.

See video

**Red Sea Crossing:** On the eastern side of the Sinai Peninsula is the Gulf of Aqaba where chariot wheels and human bones have been found in the coral. The remains continue over to the opposite shore in Saudi Arabia, the biblical land of Midian. God opened these waters in a great miracle to save His people.

See video

**Mount Sinai:** Galatians 4 "Mount Sinai in Arabia" This site is in Saudi Arabia and Midian. The blackened peak is evidence of God's fire when He spoke the Ten Commandments as the children of Israel gazed upon the scene. The giant split rock of Moses is just west of this area, along with the Elim Oasis.

See video

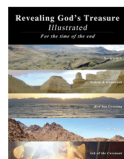

**Ark of the Covenant:** Soon the world will see this amazing discovery, complete with the tablets of stone and the blood of the Messiah, proving He truly was the son of God. The ark is in a cave in the Garden Tomb grounds beneath the crucifixion site of Christ. Gold detection shows it is there. His blood fell on the ark, anointing it!

See video

Soon the mark of the beast law will be enforced and the tablets of stone will come out of the cave for the world to see. Rev. 14:12 says the saints will be keeping them, while the previous verse speaks of those who are not and they receive the mark of the beast. The world will see these discoveries which are a sign of God judgments of mankind in the past, but He wants His children to obey and be saved today. The evidence of Christ's unique blood showing only one parent will be a testimony of His divinity, I Tim. 2:5,6 Jesus will be "testified in due time." Daniel 9:24 says, "to anoint the most holy" which is the ark of the covenant. It was anointed with the blood which put an end to sin, atoned for our iniquity, and brought in righteousness. Praise God for this evidence of truth that He has brought out for us to see.
