A judgment of the living will soon come upon the world, so God has lovingly prepared this testimony of truth for all of mankind to see

ArkDiscovery.com presents truth for today

# Noah's Ark

Located 15 miles south of Mount Ararat, this site was first seen in aerial photographs in 1959, and then appeared in *Life* magazine the next year. The magazine showcased a group which visited the site, but thought it was a natural formation. In 1977, Ron Wyatt of Nashville, Tennessee, visited the area and relocated the formation after receiving Divine assistance. Mr. Wyatt made 23 more trips out to the site over the years. It was in 1987, that the government declared this to be Noah's ark and labeled it a national park. A visitors center was constructed that year and is still welcoming those who venture to the mountain today.

The length of the ark is 515 feet, which is 300 Royal Egyptian Cubits. Moses was schooled in Egypt, so when he wrote in Genesis that it was 300 cubits, he was speaking of the cubit of which he was familiar.

Testing was conducted on various artifacts that were found. In front of Turkish authorities, Ron Wyatt unearthed a special deck timber which was comprised of three layers, all glued together and appearing to be cypress wood (left). Later, metal objects were analyzed, such as this 3.5 inch metal rivet that has a round washer and a center rod which was struck when it was hot, thus clinching it upon the washer. (right)

Galbraith Labs tested the metal specimen and it contains aluminum metal, titanium metal, iron, magnesium, etc. The aluminum and titanium metals are man-made, thus this site is a man-made structure. These are designed for superior strength and versatility. Our Ark Discovery team found similar metal fittings and received the same test results. We are told in Genesis 4:22 that Tubal-Cain was an instructor of metal workers before the Flood, so we should expect to find it within the formation today.

Twelve miles away, in an ancient village known as The Village of Eight, we can see numerous sea anchors that Noah used to help keep the tapered bow facing the oncoming waves. Ropes were attached to the stones and this allowed Noah to cut them off when the opportunity was right. The ark then floated its current mountain.

# Sodom & Gomorrah

Sphinx in Gomorrah

In the first century AD, Josephus, the famous Jewish historian, stated that the cities of the plain were still to be seen in his day. Since that time the water level of the Dead Sea has not risen, so we too should be able to see them today. Contrary to popular belief, they are not underwater at the South end of the Dead Sea.

It was in 1989, that Ron Wyatt was driving along the Dead Sea that he felt impressed to inspect these lighter colored formations, even though he had driven by them many times before. The ash here is of a much lighter color than the surrounding terrain.

Walking through the cities one can see many examples of man-made construction, with 90 degree angles, ziggurat shapes, towers, windows, arches, and walls.

Ziggurat and tower in Gomorrah

Since the cities were destroyed by brimstone, or burning sulphur, one should expect to find evidence of such in the ash. Many examples have been found, such as the one at left. Some specimens are in a hardened, crystallized shell, and others are without. These pieces are mono-clinic sulphur which is a packed powder of a lighter color.

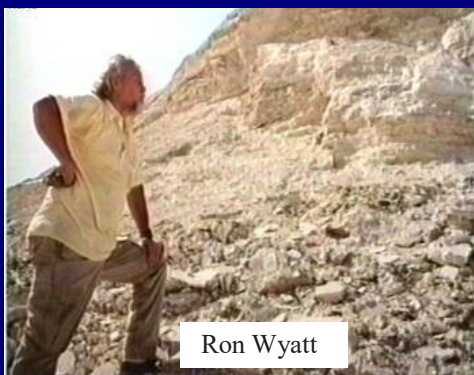

Naturally occurring sulphur, the rhombic type found in volcanic regions, is of a hardened, dark yellow form and is only 45% sulphur. The brimstone that we find in these cities is unique. It is 95% pure sulphur! A special sulphur that God rained down upon these cities. In one area we could even smell sulphur in the air!

Ron Wyatt, our Ark Discovery team, and Dr. Lennart Moller, a research scientist, have all found cremated bone in these cities. One would expect to find such since hundreds of thousands of people were consumed in the cleansing flames that day. God may have also had to destroy these cities because of rampant disease. The fires would protect mankind from a larger outbreak. He also lovingly saved Lot and his family.

It is by God's design that we are seeing these cities today, because He will judge the living soon. This is a wake-up call for mankind.

II Peter 2:6 "Turning the cities of Sodom and Gomorrah into ashes, condemned them to destruction, making them an example to those who afterward would live ungodly."

Deut. 29:23 "The whole land is brimstone, salt, and burning; it is not sown, nor does it bear, nor does any grass grow there, like the overthrow of Sodom and Gomorrah, Admah, and Zeboiim, which the Lord overthrew in His anger and His wrath."

# Red Sea Crossing

Following the biblical account, Ron Wyatt knew the children of Israel had not crossed at the nearby Bitter Lakes, but at a distant shore, outside of Egypt proper. Hiring a pilot named Moses at Eilat Israel in 1978, Ron was able to find an opening through the mountains at Nuweiba, Egypt. This was along the Gulf of Aqaba, the eastern finger of the Red Sea. When investigating the beach, Ron found a column fallen down at the edge of the water. Ron's first scuba dive at that site revealed coral covered chariot wheels! Subsequently other wheels have been found by several parties. A matching wheel was found in the Saudi waters by Viveka Ponten. There was also a matching column on that shore with Hebrew writing of: Mizraim (Egypt), Edom, death, pharaoh, Moses, water, Solomon and Yahweh. Ron concluded Solomon had erected the columns to mark the location of the crossing. Other artifacts found include coral covered human bones, a horse's hoof, gold plated wheels, chariot cabs, etc.

When finding a chariot wheel, a metal detector was used to search for metal in the object. In each case a metal hub was found in the coral, similar to the Egyptian design of chariot wheels we see in museums today.

The Bible repeatedly speaks of the "great deep" when addressing the waters of the Red Sea crossing. The depth at this location is

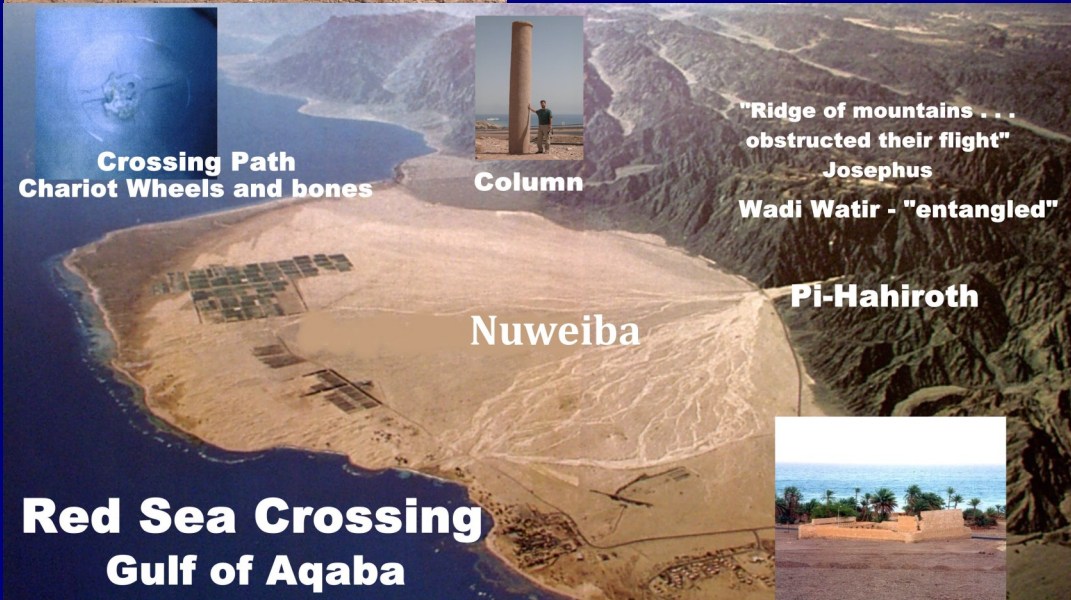

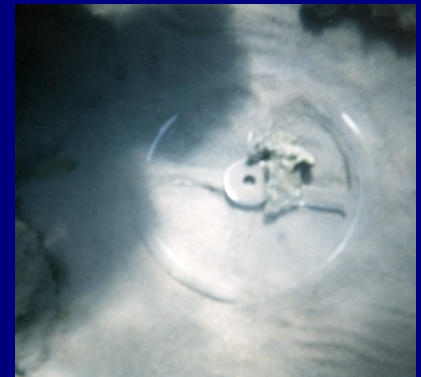

850 meters, but the distance to cross is 13 miles. This would be a four percent slope that the children of Israel would have to negotiate which is manageable.

At the site they have found four spoke wheels, six and eight spoke wheels. When Ron presented an eight spoke hub to the director of antiquities, Dr. Ali Hassan, he immediately said it was from the 18th dynasty. Ron asked him why he knew this? Dr. Hassan said it was only during the 18th dynasty that eight spoke wheels were used.

I Kings 6:1 "In the four hundred and eightieth year after the children of Israel had come out of Egypt, in the fourth year of Solomon's reign..." By counting back, one can find the date of the exodus from Egypt, which is 1446 BC. This was during the 18th dynasty of Egypt.

It was difficult for the children of Israel to travel through the mountains to this five mile long beach, but God had a plan and He delivered them from their enemies.

# Mount Sinai

By locating the Red Sea crossing, Mr. Wyatt immediately knew Mt. Sinai had to be across those waters in Saudi Arabia. At first glance this may seem radical, but when following the biblical account it is so plain that Mt. Sinai has to be in Saudi Arabia. Paul tells us in Galatians 4:25 “Mount Sinai in Arabia.” This is conclusive evidence that Mr. Wyatt was on the right track. Unable to obtain a tourist visa, as Saudi Arabia does not issue them to anyone, Mr. Wyatt set out on foot with his two sons in 1984, and walked hours through the desert to find the mountain you see here.

On all ancient maps, this area of Northwest Saudi Arabia is labeled as Midian. This is the area where Moses fled to after leaving Egypt. We are also told that Jethro, his father-in-law, was the Priest of Midian.

A distinctive marker at the site is the blackened peak of the mountain where God had burned the mountain top with consuming flames. At the base of this mountain, Jebel el Lawz, one can find stones aligned to form a corral for animals to be sacrificed. After showing this site to the authorities in 1985, the Saudi Government erected a fence around the area and posted a sign saying it is an archaeological and restricted area.

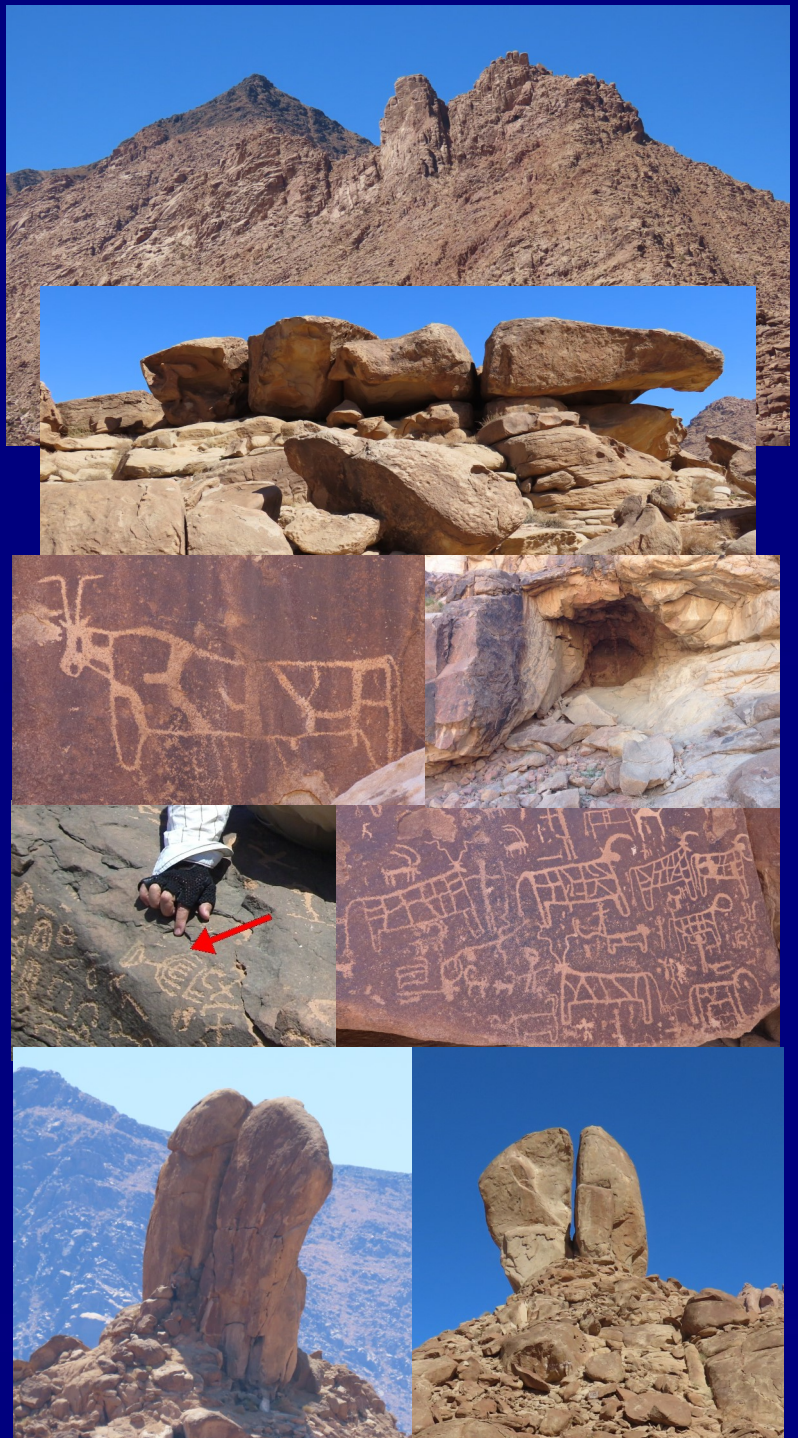

In the encampment area, large boulders are stacked up and show evidence of having been burned (right). Egyptian style apis bulls are inscribed on the stones. This was where the golden calf was placed when the children of Israel danced in rebellion. Visible on the mountain is the cave of Elijah (right).

The most important find was by Dr. Kim of South Korea. He spotted a carving of the golden lamp stand that was built there at Mt. Sinai for the tabernacle. This would be the oldest image of it ever found.

Before reaching Mt. Sinai proper, the children of Israel first came to Rephidim where Moses struck the rock and water flowed out. You can see in the image here (right) that a large volume of water has smoothed the stone of this large 50 foot tall boulder. This is a desert area and yet a large amount of water has eroded the rocks here at this site.

Kevin Fisher of Ark Discovery visited the mountain and split rock in 2020 and gleaned these photos. “It was amazing to see what God has done in preserving these sites” he said.

Hershel Shanks, editor of the *Biblical Archaeology Review*, stated in *Newsweek* magazine that Jebel el Lawz is the most likely site for Mount Sinai. See [PatternsOfEvidence.com](http://PatternsOfEvidence.com) about their upcoming film on this topic, and also the book *The Exodus Case* by Dr. Lennart Moller on Amazon.

# Garden Tomb & Calvary

Garden Tomb

It was in 1978, after Mr. Wyatt had just been to the Red Sea crossing site, that he encountered the head of Jerusalem antiquities while walking in the Garden Tomb grounds. This is the Protestant site for Jesus' burial and resurrection, found in the 1800's. While walking along a rock escarpment Mr. Wyatt mysteriously said, "That is Jeremiah's grotto and the ark of the Covenant is in there." Both of the men were startled. Mr. Wyatt was not even thinking those words but they came out of his mouth. The Israeli official said he would supply a permit and take care of Mr. Wyatt's housing, food and laundry. Mr. Wyatt returned to the USA and studied about that location and why God put those words in his mouth. He concluded that God had given him a sign.

John 19:41 "Now the place where He was crucified there was a garden, and in the garden a new tomb in which no one had yet been laid." This tells us that all three of these ele-

ments should be in close proximity to one another. The tomb, a garden and the crucifixion site.

The Garden Tomb itself is quite impressive. It is carved out of solid limestone rock and is perhaps the largest found in the Jerusalem area. The rolling stone for the entrance was uncovered by Mr. Wyatt in his excavation and it was 13 feet in diameter. Five feet to the left of the entrance to the tomb is the sheared end of a metal rod. This rod was placed behind the rolling stone by the Roman guards to keep it from rolling backwards. On resurrection morning, when the angel came down from heaven, he broke off this rod and rolled the stone back, opening the tomb. What a glorious moment! There is one crypt in the tomb that appears to have been used. The length was hastily carved out longer to allow for Jesus who was taller than Joseph of Arimathea.

In the Garden Tomb grounds, one can walk east to the edge of their property and see the large skull face that was cut out of the rock. This is marking an area where crucifixions or stonings would take place.

While digging from 1979 - 1982, Mr. Wyatt uncovered large cut-outs in the rock face of the escarpment. This was where signs were placed by the Roman guards, "Jesus of Nazareth, King of the Jews" in Greek, Hebrew and Latin. This area was along a road heading north away from the city of Jerusalem. A sight for many to see and take notice of what the Romans do to you if you are a criminal, but Jesus was unjustly sentenced to death.

While continuing to dig, Mr. Wyatt found several cross holes in the bedrock. One cross hole was on a higher level and it appeared to be different from the others. There was a stone plug in the hole which Mr. Wyatt removed. The hole was about 13 inches in diameter and about two feet in depth. Mr. Wyatt continued in the dig, going further underground and into Mt. Moriah.

Golgotha

Kevin standing over ark of the covenant

# Ark of the Covenant

The discoveries we have previously seen, Noah's ark, Sodom & Gomorrah, the Red Sea crossing, and Mount Sinai, were all found by the late Ron Wyatt through the leading of the Lord. Mr. Wyatt had a burden for souls and prayed to the Lord, "Lord help me to find something that will help someone get to heaven." It was after this, in 1977, that Mr. Wyatt ventured out to Eastern Turkey, where he had three days to search for the ark. He prayed to God that He would help them find the ark. That day the taxi stalled and quit running three times. At these areas Mr. Wyatt found Noah's ark, the sea anchors, and the area where Noah lived. All in direct answer to prayer.

In 1982, after laboring extensively since 1979 to find the ark, he entered a cave underground which contained the ark and the other temple furnishings. God had led him to this wonderful find.

What amazed Mr. Wyatt was that Jesus had been crucified directly above the ark. The Bible said there was a great earthquake, the Roman soldier pierced Christ's side, and His sinless blood fell through an open crack in the bedrock and it fell upon the Mercy Seat of the ark, fulfilling Dan. 9:24, "to anoint the Most Holy." The Most Holy is the ark of the covenant.

Years later he entered the cave and four angels appeared, like men in street clothes. They said they were the four angels who have been guarding the ark since Moses put the Ten Commandments inside. They lifted the Mercy Seat or lid of the ark and asked Mr. Wyatt to remove the Ten Commandments, and an angel said "the world needs to see them." Mr. Wyatt removed them. An angel in the cave then placed the tables of stone on a rock shelf. This was captured on video tape, which is still in the cave today. The angel stated to Mr. Wyatt, that when the Sunday law is enforced, the Ten Commandments would come out of the cave. As such it will be a testimony against the law of men that will run counter to God's fourth commandment of the Sabbath.

The angel then said to take a sample of Jesus' blood and have it analyzed. Mr. Wyatt took the sample to a lab in Israel, and after days of reconstituting it, they put it in a growth medium and the lab experts said, "This blood is alive!" Then they looked at the chromosomes and saw there were only 24, 23 from Mary, and one "y" sex determinant chromosome from God! This was a miracle, for you and I have 46, 23 from each parent! This shows that this person only had one earthly parent! The lab techs after bringing other employees to view the samples then asked, "Whose blood is this?" Mr. Wyatt said, "It is the blood of your Messiah!" They began screaming and pulling at their hair! An emotional moment for all of them. The entire world will soon learn of this information. A judgment of the living is coming, and all men, of all religions, will have to give their hearts to Jesus, allow the Holy Spirit into their hearts, and through His Holy Spirit then keep the Ten Commandments or receive the mark of the beast. God will stop winking or excusing ignorance at that point. Let us all give our hearts to Jesus, and then help others to also be saved.

This is the most important Good News on earth today, and yet so few know of this information. The forces of darkness are working hard to destroy all of these discoveries so men will not awaken from their slumber. Please assist God in sharing these discoveries with those whom you meet.

We have video of recent gold detector tests above ground over the ark site, which proves a large amount of gold is underground at that spot. Confirmation that it IS there. For more information about all of these discoveries please visit our website, [www.ArkDiscovery.com](http://www.ArkDiscovery.com).

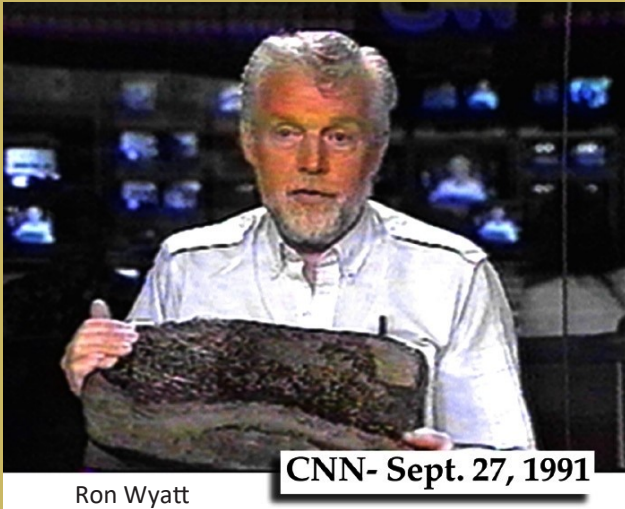

"A spear pierced His side and forthwith came there out blood and water."  
John 19:34

"The earth did quake and the rocks rent."  
Matt. 27:51

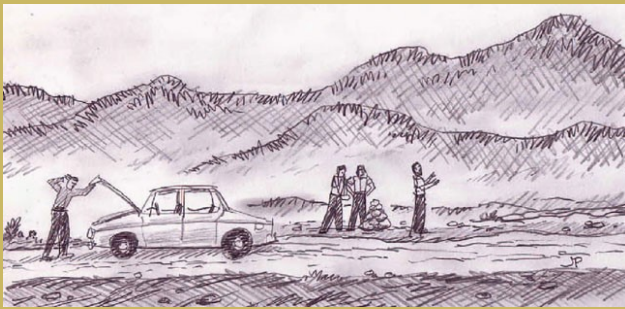

Ark in the cave below, anointed by the blood of Jesus

## The discoverer: Ron Wyatt

Ron Wyatt

CNN- Sept. 27, 1991

Ron Wyatt was a nurse anesthetist who loved biblical archaeology, but before he found anything in the mid 1970's, he was praying to the Lord, "Lord help me find something that will help someone get to heaven." His motivation was not for fame or fortune, but to enlarge God's kingdom with more souls. Ron had seen the 1960, *Life* magazine article about the possible site of Noah's ark and wanted to go out to the site and inspect it for himself. Some of the team members suggested the site could still be the ark. So in 1977, Ron and his two teenage sons went out to the area of Mount Ararat and rented a taxi to drive them around the area. But they prayed that God would help them. Soon after that prayer, the taxi stalled, and Ron said, "We just said that prayer and now the taxi stopped. Perhaps that is God giving us a sign" So they piled up stones along the road to mark the spot. Three times that day the taxi stalled. Ron went out from those piles the next day and found the ark across the valley from Mount Ararat, the sea anchor stones that hung from the ark, and the remains of Noah's home. This was the beginning of God partnering with Ron in bringing out these discoveries for mankind.

But the year after finding the ark, in 1978, Ron was searching for the Red Sea crossing site and had just found chariot wheels on the sea floor at Nuweiba, Egypt. He knew then that Mount Sinai had to be across the water in Saudi Arabia, a completely new area that others had not been researching. On that same trip he went up to Jerusalem and just coincidentally ran into the head of Jerusalem antiquities who was intrigued at what Ron had already found. He suggested Ron take a look at the Garden Tomb grounds and as Ron was walking, his hand raised and God spoke through him, "There is Jeremiah's grotto and the ark of the covenant is in there." Ron was stunned, but the Israel Antiquities representative offered him a permit to work on a dig there. On January 6, 1982, Ron entered the chamber holding the ark of the covenant. In 1978, Ron knew the location of Noah's ark, the Red Sea crossing, Mount Sinai over in Saudi Arabia, and the ark of the covenant was under the ground near the Garden Tomb. God was truly working with Ron Wyatt.

Over the next 21 years, Ron worked on these discoveries to bring out the evidence at each site so the world would see the truth of the Bible. He spent approximately one million dollars of his own hard earned money and made 130 trips overseas. Ron passed away in 1999, but the truth of these discoveries lives on and is being seen more and more each day on TV and through YouTube that has hundreds of videos from these sites. As time has gone on, people are appreciating more and more the hard work that Ron put forth in partnership with God in bringing out these discovery sites.

Ron pointing to Jeremiah's grotto near Garden Tomb.

# Ark of the Covenant Dig

## How was the ark hidden?

In 586 BC, the Babylonian army had surrounded the city of Jerusalem and Jeremiah was directed by God to hide the ark in a secure location. Under the city is a large cave, still there today, called Zedekiah's Cave. It was through this avenue that the ark was taken in secret and then North through a tunnel to a cave where it rests today. In II Maccabees 2:5-8 "Jeremiah found a cave-dwelling; he carried the tent, the Ark, and the incense altar into it, then blocked up the entrance. Some of his companions came to mark out the way, but were unable to find it. When Jeremiah learned of this he reprimanded them. 'The place shall remain unknown', he said, 'until God finally gathers His people together and shows mercy to them. Then the Lord will bring these things to light again.'" At right is a carving from Zedekiah's Cave made by one of Jeremiah's men marking the way to where the ark of the covenant was hidden. II Kings 25 mentions small items taken by the Babylonians, but no mention of the temple furniture.

Ron Wyatt at ark dig

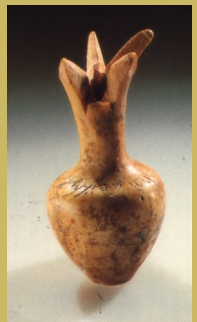

Volunteers at the dig site

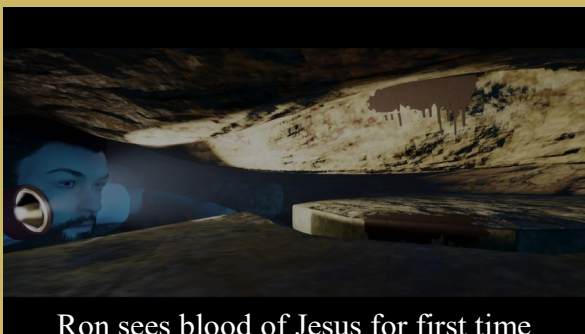

## How the dig began

In January 1979, Ron began the dig for the ark at the location where God had extended his arm and used his voice. Bedrock was found at about 15 ft. down, and tunneling along the cliff face he encountered a cross hole. This was centered below cut outs in the cliff face above where he assumed signs were placed saying "Jesus of Nazareth, King of the Jews". Ron had many volunteers helping him over the years, so this was a well known, public dig at the site. During his early digging, he had broken into the cliff face and was working inside Mount Moriah. This is the same mountain that Abraham was to sacrifice Isaac. 2,000 years later God allowed His own son to be crucified on that same mountain. Ron found inside the mountain a carved, ivory pomegranate that had Hebrew writing on it, "Sacred donation for the priests in the house of Yahweh." This was the only known object from the first temple. Ron turned it

over to the Israel authorities, but it was later stolen from their facility and they had to buy it back for \$550,000.00. On January 6, 1982, Ron finally found the chamber and crawled over hundreds of rocks to get to the stone box holding the ark. But he noticed a dark substance that had run down a crack from above and it had fallen on the stone box and inside where the lid had been broken. He then realized this was the blood of Jesus! He then passed out for 45 minutes.

Ron sees blood of Jesus for first time

## The Evidence and Testimony

Ron had the unique blood of Christ tested in Israel first, and we have heard that other labs may have tested it also. He did not show the lab reports to the public and he also did not show clear photographs of the temple furniture. These items were withheld and kept in the hands of others for safe keeping. When Ron had taken hundreds of photos inside the cave they would always turn out blurry, but when he understood he was not to make photos public, they turned out clear. Ron knew that God has His own timing to show the evidence of the ark to the world at a special moment in time. We have spoken to someone that is holding the clear photos and we have also spoken to someone who has a copy of the lab report on Jesus' blood that Ron gave them. So these items do exist, but they are being withheld until the timing is right.

Does the Bible speak of the ark being anointed with Jesus' blood? Daniel 9:24 "Seventy weeks are determined upon thy people and upon thy holy city, to finish the transgression, and to make an end of sins, and to make reconciliation for iniquity, and to bring in everlasting righteousness, and to seal up the vision and prophecy, and to **anoint the most Holy.**" The most Holy is the mercy seat with the ark. This is not referring to a person, but an object. The most Holy Place was called such because the most Holy rested in that compartment. Jesus' blood did put an end to sin, atoned for our iniquity and it brought in everlasting righteousness.

I John 5:5-9 "Who is he that overcometh the world, but he that believeth that Jesus is the Son of God? This is he that came by **water and blood**, even Jesus Christ; not by water only, but by water and blood. And it is the Spirit that beareth witness, because the Spirit is truth. For there are three that bear record in heaven, the Father, the Word, and the Holy Ghost: and these three are one. And there are **three that bear witness in earth, the spirit, and the water, and the blood**: and these three agree in one. If we receive the witness of men, the witness of God is greater: for this is the witness of God which he hath *testified* of his Son."

Jesus will be testified in the near future as noted here in I Timothy 2:5,6 "For there is one God, and

Christ's blood on Mercy Seat. (illustration)

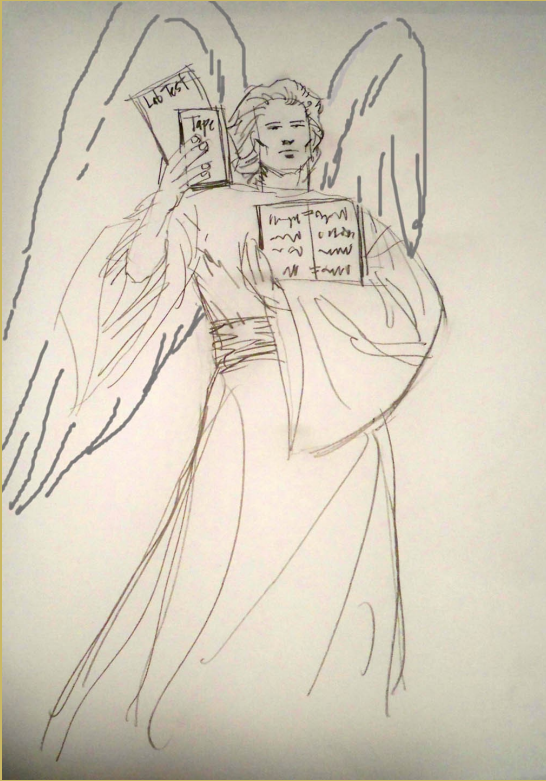

one mediator between God and men, the man Christ Jesus; Who gave himself a ransom for all, **to be testified in due time.**" The blood of Jesus will be a testimony to the world that He was born of a supernatural arrangement with only one earthly parent. This evidence will be shown across all the media on earth as part of finishing the Gospel message for the world.

Ron believed Ellen White was an inspired author who lived over a hundred years ago that penned these interesting statements about the ark: "Because of Israel's transgression of the commandments of God, and their wicked acts, God suffered them to go into captivity to humble and punish them. Before the temple was destroyed, God made known to a few of his faithful servants the fate of the temple, which was the pride of Israel, and which they regarded with idolatry, while they were sinning against God. He also revealed to them the captivity of Israel. These righteous men, just before the destruction of the temple, removed the sacred ark containing the tables of stone, and with mourning and sadness, secreted it in a cave where it was to be hid from the people of Israel, because of their sins, and was to be no more restored to them. That sacred ark is yet hid. It has never been disturbed since it was secreted." 4SGA, p114

She also wrote of the tables of stone from Mount Sinai, "But in God's appointed time He will bring forth *these* tables of stone to be a **testimony** to all the world against the disregard of His commandments and against the idolatrous worship of a **counterfeit Sabbath.**" MR 8, p100

Read a great book she wrote on the Christian era, including the future and the mark of the beast, see [TheGreatControversy.org](http://TheGreatControversy.org) and read the last 13 chapters first.

# What does all of this mean?

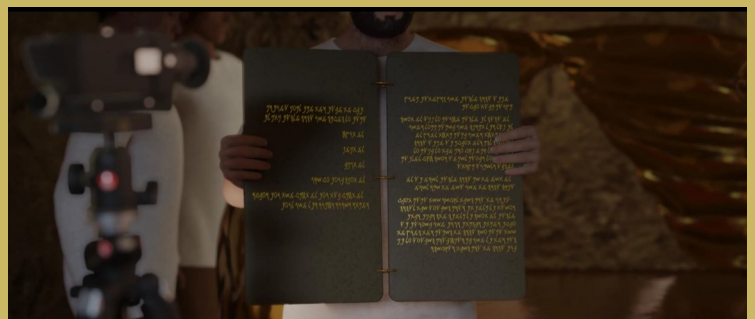

All of these discoveries are related to judgment. We can see in Sodom and Gomorrah where God had to destroy the wicked, but He saved the faithful, at the Flood God destroyed the wicked but saved eight faithful, even at the Red Sea crossing God destroyed the wicked, but at the same time He brought His people over to safety, and at Mount Sinai God wrote the law that we will be judged by, and then that same law was placed into the ark of the covenant that is a holding place of evidence.

The angel in the cave told Ron that after the Sunday law is enforced, the tables of stone will come out of the cave for the world to see. Along with the stones will come a video tape of Ron removing the ten commandments from the ark with the assistance of angels, and the blood of Jesus will also come out. All of this evidence will be shown to the world. The world will see the ark in the cave, see the blood of Jesus and the test results, and see Ron Wyatt in the cave. People will have to make a decision about following Jesus as their savior, allowing the Holy Spirit into their heart, and then following the ten commandments. This will be at a time when God is assigning

the mark of the beast or the seal of God to everyone on earth. It will be judgment time, whom will we serve, will be the question. Serve God to the fullest or follow man and self. Most of the world's population have grown up in false belief systems and they need a jolt of truth in front of them. That is what the blood of Jesus and the ten commandments are about. A show-and-tell demonstration of truth. The 144,000 will be pointing out this evidence, "Look! The blood of Jesus shows us He was the Son of God! Give your heart to Him! Look! God wrote the ten commandments with His own finger! Follow Jesus and obey His Law!"

Revelation 12 describes two groups. In verse 11 it describes those who have the mark of the beast, "And the smoke of their torment ascendeth up for ever and ever: and they have no rest day nor night, who worship the beast and his image, and whosoever receiveth the mark of his name." But the next verse describes the saints at that time, "Here is the patience of the **saints**: here *are* they that **keep the commandments of God**, and the faith of Jesus." Rev 14:12. They are keeping the Ten Commandments and will be saved.

Friends, we are living in the last days. We can see the signs that Jesus spoke of in Matthew 24, "And ye shall hear of wars and rumours of wars: see that ye be not troubled: for all *these things* must come to pass, but the end is not yet. For nation shall rise against nation, and kingdom against kingdom: and there shall be famines, and pestilences [covid], and earthquakes, in divers places. All these *are* the beginning of sorrows. Then shall they deliver you up to be afflicted, and shall kill you: and ye shall be hated of all nations for my name's sake." Jesus' statement here ends with persecution that is coming upon those who stand for Him and the truth. Let us all get ready for what is coming upon the world in a very short time. These discoveries are a warning to the world that God is about to judge the living. Are you ready friend? Please share this material with others.

Ron Wyatt with Tom Jarrell in Dogubeyazit, Turkey.  
From ABC's "20/20" filmed August 1985.

From 1977 to 1999, Ron Wyatt made 130 trips overseas working on this material. He would work a few months in Nashville as a nurse anesthetist, then head out to do research on the discoveries. No doubt donating over a million dollars of his own money to do this work for the Lord. These discoveries have aired on ABC, NBC, CBS, Discovery Channel, The Learning Channel, and various newspapers around the world. God is in control and when the time is right, the entire world will hear about these discoveries.

With DAN BAHAT, FORMER HEAD  
OF ANTIQUITIES  
FOR JERUSALEM

CNN- Sept. 27, 1991

Ron Wyatt died in 1999, but the work he left behind is still shocking the world today. We are nearing the time when the Ten Commandments will come out of the cave, and all the world will be judged. Contact us for a presentation in your church.
